

Workshop Endorsements

"...take note of how effectively this course was run. Some of the strategies utilized that made this class run so smooth might be missed by a first time e-learner. . . I really appreciated having identified sources as a basis for our learning and then how you promoted our individual growth. Thank you for a great class. I would put this class experience into my top 5 list."

*- Connie Meier-Gade, Nursing Faculty,
Online Workshop Participant*

"I like the way you have the course set up so that we practice what we are assigned....Thanks for a great educational experience."

*- JoAnn Olson, Nursing Faculty,
Online Workshop Participant*

"Overall this was a good experience. I definitely feel more knowledgeable about the topic. Tim was very prompt with his responses, and answered questions in a timely manner."

*- Catherine K. Pagel
Online Workshop Participant*

"This class ranks as one of the best – it definitely made use of educational principals and truly applied them. I have participated in many educational workshops/classes that did not walk the talk. This class most certainly did."

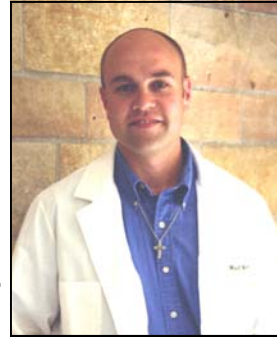

*- Summer '06
Online Workshop Participant*

"I enjoyed this workshop, and feel I learned a lot. I can't wait until I can use some of the tools I learned with my course."

Registration is required and seats are limited. Registration will be accepted on a first-come, first-serve basis.

Cancellations are requested at least two weeks in advance due to the limited number of slots. This will allow time for providing others to access that slot. A \$10 fee will be incurred for Credit Card Cancellations.

Evidence-Based E-Learning for Nurse Educators

On-Line Workshop

Practical Training Immediate Application

Facilitated by

Tim Bristol, PhD, MSN, RN

Sep 17 - Oct 14, 2007

Workshop Objectives

The participant will be able to:

- Describe the theoretical basis for E-Learning use in nursing education.
- Analyze challenges and opportunities of E-Learning for nursing education.
- Collaborate with peers in strategic planning for E-Learning implementation and management.
- Improve communication with students through the use of E-Learning.
- Enhance learning for students through the use of E-Learning.
- Develop effective evaluation strategies for on-line courses and students.

Technology Requirements

- Different Web sites will have different requirements.
- Windows 2000 – Present (Macintosh may also work in most activities)
- Internet Connection – Dial up will work for most of the activities. However if you have an unstable connection, you may wish to use a computer connected to high speed (DSL, T1, Cable, etc.)
- Email (any type, free, work, school, etc.)

Nursing Contact Hours

This continuing nursing education activity was approved for 28.8 contact hours, by the Illinois Nurses Association, an accredited approver by the

*American Nurses Credentialing Center's
Commission on Accreditation.*

Purpose of the Workshop

This workshop will analyze facts, figures, and fables related to E-Learning in Nursing Education. Interactive practice exercises will focus on developing E-Learning objects for face-to-face and on-line nursing courses. This highly interactive on-line workshop will place the educator in the role of the student while simultaneously learning theory and pedagogy for effective E-Learning.

Target Audience

This workshop is intended for Nurse Educators interested in exploring or improving their use of E-Learning. This may include administrators, full-time, part-time, adjuncts, preceptors and lab faculty. While the focus is on nursing education, secondary and post secondary educators in other professions will also discover valuable insight into creating successful E-Learning courses.

Participants will receive a course module. Please have the following available at the start of the E-learning workshop:

- Syllabi
- Modules
- Learning activities

These can be converted to the E-Learning format (clinical, lab, or theory courses).
